"The quality of the faculty and the university was incredible. All professors were honest and friendly. I must say that my favorite course was not purely an engineering course. ... What I truly admire from this course is that the professor showed us that integrity is the most important quality we must keep in our professional lives."
(UCD Reciprocity student from the Autonomous University of Barcelona)

"Awesome experience!! Thanks a lot UC and GO AGGIES!!!"
(UCD Reciprocity student from the National Autonomous University of Mexico)
Imagine yourself in a relaxed college town near California's state capital city of Sacramento, a short drive away from the San Francisco Bay Area, Napa Valley wine country, and superb skiing at Lake Tahoe. With over 100 undergraduate majors, a bicycle-friendly campus and a strong commitment to sustainable living, UC Davis is the campus for you!
