Dear UCEAP Student,

Join the University of California's newest campus: UC Merced! You have the chance to bring your fresh ideas and be in the first class of UCEAP Reciprocity students to study at a campus with a friendly, small-college vibe.

Only UC Merced and UC Berkeley offer semester-length terms.

Study computer science and engineering, biology, physics, chemistry, earth systems, mathematics, economics, anthropology, psychology, cognitive science, political science, and management.

Located near spectacular national parks, UC Merced makes "green living" and undergraduate research a high priority.

Check out other UC Merced majors at: http://www.ucmerced.edu/academics/

Come celebrate UCEAP's 50th anniversary with us at UC Merced!

Your Friends at UCEAP

"I like that the facilities are state-of-the-art. Every lab and lecture hall is brand new! I like that the student body is small, which means less competition for research."

(UC Merced student)

"You are the hope of Merced and of this nation. Be the realization of our dreams and the hope for the next generation. We believe in you."

Michelle Obama
Commencement Speech, 2009

The highlight of your education is just around the corner. Make study at UC a part of your future. Spread the word!
Enjoy camping trips to the Sierras, campus movie and game nights in the dorms, a vibrant and inclusive community theatre, boating on the lake, rafting in the Merced River, and Yosemite snowshoeing by moonlight!
