Dear UCEAP Student,

Can a campus in a breathtaking natural setting also be home to five Nobel Prize winners, 12 national institutes and centers, and more than 100 research units? UC Santa Barbara is such a campus.

UC Santa Barbara is internationally recognized for its teaching, research excellence and its interdisciplinary programs. Students come to UCSB not only to study hard sciences but for humanities, social sciences, such as the multi-disciplinary Global Studies and the variety of unique ethnic studies programs (Black Studies, Chicano Studies, Asian Studies...)

Overlooking California’s scenic Pacific coast, its location midway down the state leaves you poised for travel north or south.

Take courses in
Physics, environmental studies, religious studies, engineering and computer science, chemistry, biology and marine biology, film studies, geography, and more.

Find your field of study at:

"UCEB is a campus with beautiful beaches, wonderful students and excellent teachers. I took courses from the statistics department. I got to communicate and interact with my classmates and my professors a lot. Do take the opportunity to talk to your professors. Teachers at UCSB are really kind and professional,"

"Exchange at UCSB was the best academic experience of my life!"

The highlight of your education is just around the corner. Make study at UC a part of your future. Spread the word!
Established in 1970, the Environmental Studies Program at UC Santa Barbara is one of the oldest and largest programs in the nation, and is recognized as one of the most successful undergraduate environmental programs in the world. The "green", environmentally conscious spirit is a part of life at UCSB. Daily more than 15,000 cyclists traverse seven miles of bikeways on or adjacent to UCSB to attend classes and campus events. Less than 20 percent of UCSB students drive to campus.
